MS/BS Biologist

Eternity Bioscience Inc. in Cranbury, New Jersey, USA, is a wholly owned subsidiary of Hengrui USA which is the US subsidiary of Jiangsu Hengrui Medicine Co., Ltd., China's top pharma with the largest drug stock value on Shanghai Stock Exchange. Our mission is to deliver high quality and translational preclinical drug candidates for critical medical needs. With recent expansion of its New Jersey operation and site relocation to a lakeside research building, the company is seeking a highly motivated and skilled biologist in drug discovery research. The successful candidate will be proficient in translational experimental design, execution, data analysis and reporting, work independently and collaboratively as part of multidisciplinary project teams and have the capacity to quickly adapt to project priority changes.

Job Description:

1. Perform a variety of in vitro and ex vivo pharmacological assays to support multiple drug discovery projects, including but not limited to fluorescent, colorimetric or label-free enzymatic and binding kinetics assays, cell culture and cellular assays, qPCR, ELISA, and flow cytometry.
2. Deliver high-quality and timely data to project teams;
3. Present the work clearly in internal project meetings;
4. Be flexible on other lab duties as assigned ad hoc.

Basic requirements:

1. MS/BS degree in biological sciences, with working knowledge in cell biology, biochemistry, pharmacology, molecular biology or immunology, preferably with some drug discovery research experience;
2. Proficiency with data analysis programs, such as Excel and Prism;
3. Ability to multitask and adhere to tight timelines;
4. Ability to work in a diverse team setting and collaborate effectively on complex projects;
5. Technical proficiency, ability to learn new techniques quickly, effective problem solving, and critical and quantitative thinking skills required;
6. Excellent communication, interpersonal, and organizational skills.

Prospective candidates are encouraged to visit the following link for more information:
